

Cali Avanti User Guide

Ⓐ Mode & Confirm Button

Ⓑ On/Off

⊖ Minus and **BACKGROUND HEAT**

⊕ Plus and **COMFORT HEAT**

It is important to understand that these radiators are designed to have a continuous background temperature with a comfort temperature when required and should be programmed to get their full benefit.

Recommended temperatures

Background 15 degrees & Comfort 21 degrees

Note:

Switching the radiator off at the socket/power supply will result in the time & day settings being lost and will need to be reset.
